

Q-NOVA TICKET PRINTER

Introduction

Q-NOVA is an innovative wireless take-a-ticket-system for small outlets and offices. The contemporary design of the ticket printer attracts the visitor's attention. The ticket is exposed and illuminated by a lamp. Target markets include retail, smaller retail bank branches, retail pharmacy, post offices, travel agencies, foreign exchange, universities, exhibitions, opticians, jewellery shops, etc.

Features

- Advertising on tickets.
- Easy editing of ticket texts.
- A contemporary design that works.
- Single customer category.
- Easy installation – wireless.
- Durable plastic case made in PC – ABS.
- Various stands for wall, desk and floor mounting.

Optional:

- Statistics.
- Multiple wireless terminals.
- Multiple displays (both 911 and 917).
- Voice.
- Weights for floor pedestal.

With Q-NOVA Ticket Printer you can:

- Promote chosen products by printing advertising on the tickets.
- Organise queues.
- Move the ticket printer easily if necessary.
- Measure service efficiency in-store.
